---

## 8. Legal Disclaimer

PuppyDex is a community-driven meme token and should not be considered a security, investment, or financial instrument. Always DYOR (Do Your Own Research) before participating in any cryptocurrency.

---

## 9. Created with GPT: A New Way to Build Crypto

PuppyDex was born from an ambitious vision — to launch a cryptocurrency **without any prior coding or blockchain knowledge**, entirely by using **GPT-powered tools**. Every step, from writing the smart contract to designing the website, developing tokenomics, and creating the whitepaper, was guided by **GPT AI**.

This project is proof that **technology can empower anyone**, regardless of their background, to enter the Web3 space. By embracing transparency and innovation, PuppyDex becomes a symbol of a new era — where AI helps dreamers build real communities and crypto ecosystems.

We proudly carry the **“Powered by GPT”** badge as part of our identity — not just as a tool, but as a **partner in creation**.
